

SPP 1992 All-hands-on-deck meeting posters

Note: this list is preliminary and subject to last-minute change

List of posters	
Engin Keles	Spectral signature of atmospheric winds in high-resolution transit observations
Sara Khalafinejad	Updates: A comparative study of exoplanetary atmospheres, using CARMENES high- resolution transmission spectra
Miriam Rengel	Radiative Transfer and Inversion codes for characterizing planetary atmospheres: an overview
Hendrik Schmerling	The TOI-2427 system; Two planets orbiting a K-dwarf
Dane Späth	The Waltz Radial Velocity Survey - Searching for Long-Period Planets orbiting Evolved Stars using the Waltz Telescope at LSW Heidelberg
Lukas Winkelmann	Investigating the pointing performance of small satellites for exoplanetary research
